

# MINORITY REPORT

November 2024

## Newsletter

Dear reader,

Welcome to the first newsletter of the Minority Report project, which officially began in June this year. We invite you to follow our newsletters which are issued every 6 months. This way you will get updates on our progress, latest developments, and key achievements. Each issue will provide insight into the submitted deliverables and important news. Let's keep in touch!

## About the project

### Mitigating environmental disruptive events using people-centric predictive digital technologies to improve disaster and climate resilience

Minority Report will develop and implement a co-creation framework to support the delivery of a people-centric technology platform. This platform will enable a sustainable, circular value chain for the construction and renovation of built environments, enhancing climate change mitigation and disaster resilience. Minority Report will apply its universal co-creation framework across three demo sites representing three distinct climatic areas, situated in EU and the IndoPacific.

## Deliverables

D8.5

### Project Management Plan

#### IESRD

The Project Management Plan provides key guidance on reporting the project progress via deliverables and via financial claims to the EC. The document outlines the management structure and management methods, communication methods and protocols, reporting protocols, tips for potential audits and a sample Non-Disclosure Agreement (NDA) to be used when talking with organisations outside of the project consortium.

## News & Events

### 1st Press Release

The project issued its first press release at the start of its journey to introduce its objectives and goals to a wider audience. This press release is available on the project's website and can be accessed by clicking the "Read more" button.

### 2nd General Assembly

We met in Dublin for the 2nd General Assembly, where we reviewed our progress to ensure we are on track with our plan. This was also the first in-person gathering of the project and an opportunity to visit one of the project's demonstration sites.
